Rapsodo®

HITTING

WHAT IT IS

- Portable hitting launch monitor engineered for softball
- Indoor/outdoor capability
- Proprietary radar/camera system for pro-level accuracy
- Easy-to-use app wirelessly connects to an iPad
- In-app video playback to provide an instant, slow-mo look at swing mechanics

HOW IT WORKS

- Radar and camera technology to capture real-time hitting data
- Go beyond exit velo/launch angles for advanced hitting insights
- In-app creation of player profiles for ongoing monitoring of player performance
- Instant data feedback allows coaches and players to make swing adjustments in between pitches
